A thorough diagnostic work-up and good treatment is very important to reduce the impact of the disease on children's health. A few studies have investigated quality of life in children with eczema and showed that most of the children report a significant impact of the disease on their quality of life. In the present article, the epidemiology, etiology, diagnosis, management, and influence of eczema on quality of life in children are discussed.1. Field of the Invention The present invention relates to an automated tape measure. 2. Description of the Prior Art A wide variety of magnetic tape measures have been developed. For example, U.S. Pat. No. 3,594,529, issued to J. L. Schultes on July 20, 1971, describes a tape measure including a hand-operated lever for rotating a spring-powered winding gear. The winding gear is coupled to the tape of the tape measure. As the winding gear is rotated by the lever, the tape is wound on a take- b7e8fd5c8
